PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 2+ years of experience architecting scalable, high-performance web applications using React, Next, and TypeScript. Proven track record of elevating search rankings by 27+ points, slashing page load times by 35-40%, and increasing user engagement by 25-30%. Deep expertise in SSR/SSG, RESTful API integration, Redux Toolkit, and Core Web Vitals optimization. Adept at delivering production-ready, accessible, and SEO-friendly applications in Agile/Scrum environments.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, SCSS

State & APIs: Redux Toolkit, Context API, React Router, RESTful APIs, Axios, Real-time Data APIs

Performance & SEO: SSR, SSG, Code Splitting, Lazy Loading, Core Web Vitals, Lighthouse Auditing

Tools & Testing: Git, GitHub, CI/CD Pipelines, Webpack, Vite, Jest, React Testing Library

WORK EXPERIENCE

Globussoft Technologies, Bangalore

Sep 2023 – Jan 2026

Frontend Developer — React.js & Next.js | 2+ Years of Experience

- Implemented **Server-Side Rendering and Static Site Generation** to improve search engine rankings by **27 points** and increase organic page visibility.
- Architected scalable frontend applications with **React.js, Next.js**, and TypeScript, driving a **25% increase** in user engagement.
- Engineered reusable UI component libraries using **React Hooks and TypeScript**, cutting development time by **30%**.
- Integrated **RESTful APIs** via Axios with optimized data-fetching patterns, enhancing application performance by **40%**.
- Directed **code splitting, lazy loading**, and Webpack bundle optimization, accelerating page load times by **35%**.
- Achieved **Lighthouse performance scores above 90** consistently, ensuring full Core Web Vitals compliance.

PROJECTS

Travls.io — Flight & Hotel Booking Platform | Live Project

2025 – 2026

- Spearheaded migration to **server-side rendering** using Next.js, boosting organic search traffic by **30%** through enhanced metadata and structured data.
- Designed seamless **multistep booking and payment** workflows, cutting user drop-off by **25%** and lifting conversions by 15%.
- Optimized initial load performance by **40%**, lowering Time-to-Interactive by 2 seconds and raising user engagement by 12%.
- Planned **Redux Toolkit** global state architecture, shrinking code complexity by 30% and accelerating feature delivery by 25%.

AdsGPT — AI-Powered Advertising Platform | Internal Tool

2024 – 2025

- Built a responsive **analytics dashboard** with interactive data visualizations, achieving a **30% uplift** in user engagement.
- Applied **lazy loading and dynamic imports**, improving application performance by 40% for a seamless user experience.
- Consolidated **Redux Toolkit** state management, eliminating redundant logic and lowering production bugs by **20%**.
- Integrated real-time **data visualization APIs**, enabling a 15% increase in data-driven decision-making across teams.

PowerDAO — Web3 Decentralized App Platform | Open Source

2023 – 2024

- Engineered scalable **Web3 decentralized application** interfaces using React.js, achieving a **30% surge** in user engagement across the platform.
- Connected **5 blockchain and Web3 data sources**, enabling real-time on-chain data synchronization across the platform.
- Crafted **20+ responsive, reusable UI components** following atomic design principles, shrinking development time by 25%.
- Streamlined **decentralized app navigation and state flow**, reducing user-reported complaints by **40%**.

EDUCATION

Government Engineering College, Ramanagaram

2019 – 2023

Bachelor of Engineering in Computer Science | CGPA: 3.2 / 4.0

CERTIFICATIONS

- Certified MERN Stack Developer
- Advanced React — Certified Developer (Udemy)
- Advanced JavaScript — Certified Developer (Udemy)
- Java Programming — Certified Developer (Udemy)
